

EDUCATION

George Washington University (2022 - 2026)

Bachelor Of Science in Computer Science

- revTECH social media manger
- Engineering Council Community outreach chair

EXPERIENCE

LigaData

Washington DC

PRODUCT QUALITY ENGINEERING INTERN

January 2024 – Ongoing

- Conduct thorough testing of software applications to identify defects, ensuring they meet functional and performance requirements.
- Collaborate with the quality engineering team to create comprehensive and effective test cases based on product specifications.
- Gain hands-on experience in test automation tools and frameworks to streamline testing processes and improve overall efficiency.

Mawdoo3

Amman, Jordan

FRONT-END ENGINEERING INTERN

May 2023 - July 2023

- Utilized HTML, CSS, JavaScript, and various front-end frameworks to develop and enhance the user interface.
- Gained hands-on experience with technologies such as PHP, Python, and SQL.
- Collaborated with a talented team of developers to meet project deadlines and achieve organizational goals.
- Developed a deeper understanding of the importance of teamwork, adaptability, and continuous learning in the IT field.

Zain JO

Amman, Jordan

TRAINEE

June 2022 - August 2022

- Collaborated with the Zain Cash team in the development of the new Zain Cash mobile app, contributing to its user interface and helping write user prompts for a seamless user experience.
- Conducted data analysis to derive insights and support decision-making within the organization.
- Attended meetings to provide IT and technical perspectives on product development and marketing strategies.

TECHNICAL PROJECTS

University Registration system – Python, HTML/CSS, Javascript, MySQL (AWS)

- Collaborated on the development of a comprehensive university registration system, integrating a MySQL database hosted on AWS to manage user data efficiently

Shopping website – Python, HTML/CSS, SQL

- Engineered an e-commerce platform dedicated to comic book enthusiasts, featuring a seamless integration between the front-end user interface and back-end database operations

GWordle – Java (GUI)

- Conceived and implemented GWordle, a creative spin on the popular Wordle game, incorporating elements from The George Washington University, fueled by a passion for word puzzles.
